

SMS Requirements Matrix

SMS channel only - rollout phases and priorities | 2026-07-27

Phase 1 - Enable first

- SMS-01 Login / Registration OTP - Auth (LoginPage, registration verification)
- SMS-02 Appointment Confirmation - Appointments Notify; New Appointment
- SMS-03 Appointment Reminder - Appointments Notify; automated reminder
- SMS-10 Payment Received Receipt - Appointments receipt share; Finance receipts
- SMS-15 New Appointment Booking Notify - NewAppointmentModal notifyMethod

Phase 2 - Retention / finance

- SMS-04 Running Late / Delay
- SMS-05 Thank You After Visit
- SMS-06 Upcoming Appointment (Customers)
- SMS-11 Payment Reminder (Due)
- SMS-12 Payment Reminder (Overdue)
- SMS-14 Request Feedback / Review

Phase 3 - Promotional SMS (promo DLT header)

- SMS-07 Loyalty Points Reminder
- SMS-08 Membership / Member Offer
- SMS-09 Birthday Wish + Offer
- SMS-13 Coupon Send (Single / Bulk)

SMS channel rules

- OTP / auth -> SMS (primary until WhatsApp AUTH template approved separately)
- Keep SMS bodies single-segment where possible (especially receipts and OTP)
- Promotional templates need separate promo sender ID in India
- Backend: SMS_ENABLED + SMS_PROVIDER + template IDs

Current SMS status in app

- Providers coded: Twilio, MSG91, Textlocal
- SMS_ENABLED=false by default
- Many UI Send SMS actions are simulated or open device sms: links
- Login UI says SMS OTP; wire SMS-01 for real delivery
